Village of Irvington Department of Public Works

Sanitation & Recycling

Rules & Regulations

Relating to Village Code Chapter 178 Articles I II & III

Garbage:

Note: If recycling or yard waste is mixed with the garbage, it will not be picked up until properly separated by the property owner

Holiday Cancellations

During Holiday Weeks there will only be one (1) garbage collection per affected zone (Monday-Thursday, Tuesday-Friday)

Household garbage shall be placed ***curbside** for collection only in **approved plastic bags** deposited **inside watertight receptacles with lids securely fastened**. Each such receptacle shall be made of suitable material equipped with adequate handles for the purpose of lifting and shall have a capacity not in excess of 32 gallons when filled and weigh no more than seventy-five (75) pounds. Garbage and rubbish receptacles shall be kept in good repair with no ragged edges. Receptacles shall be replaced by the owners upon notice from the superintendent that the receptacles are hazardous and dangerous to the men collecting the contents. If animals get into the garbage and create a mess, it is the responsibility of the property owner not the DPW.

*** Curbside** - A location on one's own property which is adjacent to the street but not on the street.

Wire baskets and trash receptacles placed on public property at various locations by the Department of Public Works are intended as receptacles for the deposit of small items of trash or rubbish by pedestrians. **These receptacles are NOT intended for use by residents or businesses for deposit of their household or any other type of garbage, trash or recycling.** Occupants of any residential buildings and owners and occupants of commercial buildings or establishments, their agents, servants or employees, shall not deposit garbage or rubbish therein nor shall undelivered newspapers be deposited in bulk therein by any person.

No more than a total of three (3) watertight receptacles of garbage will be collected by the Department of Public Works from any commercial establishment on any regular collection day. No more than three (3) such receptacles shall be placed on the sidewalk for collection by any commercial establishment, agent, servant or employee thereof.

All of the above refuse and also any material to be picked up as recycling shall be placed *curbside on regular collection days, before 7 AM on the day of collection, but not prior to 6 PM the day before. All containers, after being emptied, shall be removed from the curb line before sundown on the (date) day of collection.

Private carters and/or contractors shall not transfer or remove garbage, rubbish, recycling or any waste material from one vehicle to another upon any Village Street or public place.

The following materials will not be collected. Removal must be made by a private carter, contractor, gardener or landscaper: Trade wastes, includes auto parts, commercial meat wastes, yard waste bundles in excess of four (4) feet in length, eighteen (18) inches in height or 50 pounds, logs, tree trunks or limbs in excess of four (4) feet in length and six (6) inches in diameter, large branches and stumps, construction and house renovation debris, such as lumber, stones, rock, masonry, plaster, sheet rock, etc. soot, sawdust, wood shavings, excelsior, cleaning and dyeing establishment wastes, highly combustible materials, toxic materials, and loose ashes from fireplaces, barbeques or wood burning stoves.

Bulk pick-up: For information on large items that are to go in the garbage such as furniture call 591-6044 or e-mail, gnilsson@irvingtonny.gov or visit the Village web site at www.irvingtonny.gov/dpw. For large items to be recycled, refer to the **Recycling Rules** below.

Rethink what you throw out! For a list of places you can donate usable items you no longer need, see www.irvingtonny.gov/green

Propane gas tanks of any kind will not be picked up. They may be disposed of at any propane distributor that fills them.

Disposal of Paint: Paint cans should be opened and filled with kitty litter. Allow sufficient time for the kitty litter to soak up the paint and dry, leave the lid off and deposit ***curbside** on your normal sanitation collection day.

Fluorescent bulbs (tube style) & CFLs (compact fluorescent bulbs): Fluorescent lighting contains mercury, so it should not be disposed with the household trash. Westchester County **Household Material Recovery Facility** on the Grasslands Campus in Valhalla. An appointment is necessary, call 813-5425 to schedule. The following retail locations accept only compact fluorescent bulbs (CFLs) - not tube style bulbs - and also rechargeable batteries: Home Depot and Lowes, contact local stores for details.

Wondering what to do with your LED and incandescent bulbs? They do not contain mercury and are not classified as toxic; therefore, they can be disposed of in the garbage.

Sharps (needles, syringes and lancets) should be placed in a **plastic** container that is leak proof, shatterproof and puncture proof with a screw top, such as a bleach or detergent plastic bottle. When the container is full make sure the top is screwed on securely and apply tape around the top and neck of the container. Mark the container **Sharps**. The preferred method for final disposal is to take the properly labeled and taped container to a hospital or nursing home or put the sharps container in with your garbage. **Do not dispose with recyclables.**

Batteries: Common household batteries should be disposed of with household garbage. The Village no longer accepts rechargeable batteries for recycling. Rechargeable batteries may be brought back to the place of purchase for recycling or, please see below under **Recycling** for instructions on how to dispose of them properly with Westchester County. Car batteries should be disposed of at any automobile service station.

Cell phones: It is against the law to dispose of cell phones in the garbage in Westchester County. Cell phones, chargers and accessories should be deposited in cell phone recycling collection boxes located just inside Town Hall and at the Library.

Yard Waste:

All yard waste is recycled

Note: If garbage or any other unacceptable material is mixed with the yard waste, it will not be picked up until properly separated by the property owner

Garden debris, flowers, cut grass, sweepings, rakings, clippings, small branches, such as annual growth from hedges, bushes, shrubbery and leaves shall be placed in **biodegradable paper bags or in metal or rigid plastic receptacles (garbage cans) having a capacity of not more than 32 gallons and clearly marked "yard waste", *curbside** in front of your own property only for collection. Clippings and small branches from hedges and shrubbery, which are too large to place in such containers, may be made up in **bundles, securely tied**, not longer than four (4) feet and weighing not more than 50 pounds. All the above bags or bundles shall be picked-up on **Mondays** on the ***North Side** of the Village & **Tuesdays** on the ***South Side of the Village**.

***North Side** = North side of Harriman Road to the northern border

***South Side** = South side of Harriman Road to the southern border

Leaf Season:

All leaves are recycled

Note: If garbage or any other unacceptable material is mixed with the leaf bags or properly marked containers, they will not be picked up until properly separated by the property owner

Options for Leaf Disposal

Option #1 - Bag/Can

The Village of Irvington will continue to pick up leaves when collected in biodegradable paper yard waste bags or containers. It is recommended that if you use a container, it should be open to allow the Village employee to easily determine that it is yard waste and not regular garbage. The container must be clearly marked "Yard Waste" or "Leaves". Materials must be placed curbside and not in the roadway. Pickup will occur throughout the week.

Option #2 - Mulch Mow

A growing environmental movement is sweeping the county. It's called Love 'Em and Leave 'Em! Mulch mowing pulverizes leaves and feeds your lawn and garden. More information can be found at WWW.LELENY.ORG.

Option #3 - Transport

Landscapers and gardeners can transport and dispose of leaves and yard waste collected on your property. This is highly effective for larger properties that generate large amounts of leaves and yard waste.

The Law

Collection of leaves and yard waste is governed by Chapter 178 of the Village Code entitled Solid Waste. That Chapter was most recently **modified on June 16, 2014** to eliminate the curbside pickup of loose leaves and yard waste, along with several other technical amendments to the Solid Waste code.

***CURBSIDE - A location on one's own property which is adjacent to the street but not on the street. It is against the law to pile leaves on a public or private road in the Village of Irvington.**

It is unlawful to burn leaves at any time in the Village of Irvington. No person, Landscape Co. or Contractor shall dispose of leaves, garden cuttings or refuse of any kind by dumping same in the streets, gutters, catch basins, sewers or other right-of -ways, including sides and shoulders of roadways or anywhere in the Village.

The Village of Irvington strongly encourages residents to mulch their leaves on site as a means to reduce waste and reduce costs. To learn about the benefits of keeping leaves on your property through mulch mowing in place and/or composting, see "Love 'Em and Leave 'Em" at www.irvingtonny.gov/green.

Recycling:

Note: If garbage, yard waste or any other unacceptable material is mixed with the recycling, it will not be picked up until properly separated by the property owner

Plastic bags are strictly prohibited when recycling

If recycling is placed in plastic bags for collection or contained within the recycling, Recycling will not be picked up until properly separated by the property owner

Wednesday is Recycling Day

For *Pulp & *Commingled

***Pulp (cardboard & paper):** Newspapers, glossy inserts, corrugated cardboard boxes, gray cardboard (such as cereal boxes), brown bags, catalogs & junk mail – place paper in a brown bag or loose in the recycling bin. Remove plastic tape from cardboard. Flatten and place cardboard boxes inside another cardboard box.

The following items are NOT to be recycled, dispose with household garbage: Paperback or hardcover books, plastic and styrofoam packing materials. **If any of the above items are found included with the recycling Recycling will not be picked up until properly separated by the property owner. Note: DPW will not return to collect contaminated recycling until the next scheduled recycling day (Wednesday)**

***Commingled** (glass, plastic & metal bottles and cans, clean aluminum foil & trays, EMPTY aerosol cans, plastic containers with the numbers 1 thru 7 on the bottom)

All containers should be rinsed clean. Labels need not be removed.

Plastic Bags will not be picked up by the Village for recycling. However, **Plastic Bags** may be taken to and recycled by any retailer that provides plastic carry-out bags to its customers and occupies more than 10,000 square feet

The following items are NOT to be recycled, dispose with household garbage: Empty containers that were filled with potentially hazardous materials such as pesticides, glues, solvents, or motor oil, clothes hangers (metal or plastic), light bulbs, drinking glasses, window glass, mirrors, ceramics or cookware.

The Village does not provide recycling bins to residents and businesses. Recycling bins are available at local Hardware stores and Home Improvement stores.

Recycling Holidays

There are 4 Holidays during the year that have the potential to fall on a Wednesday and for the 4th of July and Veterans Day **recycling for that week will be cancelled**. However, when Christmas falls on a Wednesday so does New Years Day. When this occurs recycling will be picked up on the Thursday & Friday following Christmas & New Years Day after the sanitation routes are completed. **Thursdays** on the ***North Side** of the Village & **Fridays** on the ***South Side of the Village**.

***North Side (NZ)** = North side of Harriman Road to the northern border

***South Side (SZ)** = South side of Harriman Road to the southern border

Recycling Bulk Items:

Thursdays by appointment (Holidays no collection)

For information on how to recycle bulk items, call 591-6044 or email, gnilsson@irvingtonny.gov or visit the Village web site at www.irvingtonny.gov/dpw.

The Village recycles: All bulk metal, appliances, refrigerators & freezers, air conditioners, televisions, computers, monitors, **ALL** electronic equipment, metal tools, BBQs (no propane tanks), etc.

TEXTILES: includes; old clothing (clean & dry), quilts, drapes, bedspreads and towels. **NO** Carpets, theatrical draperies, drop cloths, shop towels or pillows, dispose of these items with the garbage. Place textiles in **clear** plastic bags (**exception to the no plastic bags when recycling rule**) for Thursday collection by appointment.

The DPW picks up **Bulk Recycling *curbside** on Thursdays. **Scheduling is necessary.** Call 591-6044 or e-mail gnilsson@irvingtonny.gov to schedule. Note: This material is not picked up during the garbage collection, we send a recycling truck for collection of these items.

The Village does not accept **TOXIC MATERIALS** of any kind during garbage or recycling pick-up.

Westchester County has constructed a permanent Household Material Recovery Facility (H-MRF) on the Grasslands Campus in Valhalla. Opened in January 2012, the H-MRF will accept many of the same wastes collected at the Household Recycling Days, including household chemicals, electronics, rechargeable batteries, freon containing appliances, scrap tires, BBQ tanks, and confidential documents for shredding. The H-MRF will be open three days a week, Tuesdays, Thursdays and Saturdays, and residents will need to make and schedule an appointment to deliver wastes to the site, by calling the County's Recycling Helpline at 914-813-5425 or by going online to www.westchestergov.com. Information on how to properly recycle can be obtained from the Westchester County web site, www.westchestergov.com/recycling. You can also call the Recycling Help Line at 813-5425 for more information or if you have any additional questions.

If you have any questions please feel free to contact the Superintendent of Public Works at 591-6044 or gnilsson@irvingtonny.gov. Please remember that in severe winter weather both sanitation and recycling pickup may be delayed or cancelled. If in doubt, call our Highway Department in the morning at 591-8787 or the Superintendent's Office at 591-6044.
